JULY 2025 EDITION

At Vijay Millennium Senior Secondary School, we believe that teaching is both an art and a responsibility. This month, our focus is on fostering creativity in the classroom, where learning becomes an engaging journey rather than a routine task. From role play and gamified lessons to student-led discussions, our creative teaching strategies aim to spark curiosity and deepen understanding. As a Computer teacher, I am constantly reminded of the power of language to shape young minds. I recently witnessed this when a poetry activity encouraged even the quietest student to share heartfelt words, proving that "words have the power to shape our world".

Moments like these affirm the wisdom in William Butler Yeats' words: "Education is not the filling of a pail, but the lighting of a fire". They inspire us to keep experimenting, reflecting, and nurturing an environment where every child feels seen, heard, and empowered to learn.

TEACHER'S MESSAGE

"LEARNING UNLOCKED"

STUDENT'S MESSAGE

This month has been a journey of discovery! Our classroom turned into spaces of curiosity where students explored new ideas, tackled thought-provoking challenges, and connected concepts to real-life situations. From interactive experiments and creative projects to engaging discussions, every activity encouraged critical thinking and teamwork. Students not only gained knowledge but also built confidence in expressing their ideas and solving problems in innovative ways. Learning has truly become an exciting adventure-one that goes beyond books.
